SUMMARY

Full Stack Developer with hands-on experience in React.js, Node.js, and REST APIs, pursuing a B.E. in Computer Science & Engineering (CGPA 9.01, Velammal Institute of Technology, 2027). Built and deployed end-to-end projects including a Smart Job Portal, an E-Commerce Web Application, and an AI Resume Analyzer — applying JWT authentication, RESTful API design, and responsive UI development across real-world use cases.

EDUCATION

Velammal Institute of Technology, Anna University B.E. – Computer Science & Engineering CGPA: 9.01 / 10	2023 – 2027
Sri Chaitanya Junior College Intermediate (MPC) 95.5%	Completed 2023
Ratnam EM High School Secondary Education (SSLC) 99%	Completed 2021

TECHNICAL SKILLS

Languages & Libraries: Java | JavaScript (ES6+) | HTML5 | CSS3
Frontend: React.js | Responsive Web Design | Bootstrap
Backend: Node.js | Express.js | REST APIs
Databases: MySQL | MongoDB
Tools: Git | GitHub | VS Code
Concepts: Data Structures & Algorithms | OOP | MVC Architecture

INTERNSHIP

Virtual Experience Program — Deloitte Australia (Forage) Deloitte Virtual Programme	2025
- Completed a technology consulting simulation involving data interpretation, workflow automation strategy, and client requirement analysis. - Applied structured problem-solving and analytical reasoning to real-world business case studies using industry-standard frameworks.	

PROJECTS

Smart Job Portal	React.js Node.js Express.js MongoDB REST APIs
- Architected a full-stack job portal with JWT-based authentication, role-based access control for recruiters and applicants, and real-time application status tracking. - Designed and implemented RESTful APIs for job postings, candidate filtering, and application management; integrated responsive dashboards improving UX across devices. - Reduced page load time by 30% through React component optimisation and lazy loading.	
E-Commerce Web Application	React.js Node.js MySQL REST APIs
- Built a full-stack e-commerce platform featuring product search with filters, shopping cart management, and order lifecycle tracking (cart → checkout → confirmation). - Developed secure RESTful API endpoints for product catalog, inventory, and order management; implemented responsive UI with HTML5/CSS3 for cross-browser compatibility.	
AI Resume Analyzer	React.js Node.js AI/NLP APIs
- Developed an AI-powered web tool that parses uploaded resumes, computes ATS compatibility scores, and surfaces targeted improvement suggestions using NLP techniques. - Integrated keyword gap analysis against job descriptions and an automated interview question generator, reducing resume revision cycles for end users.	

CERTIFICATIONS

- Oracle OCI 2025 Generative AI Professional — Oracle
- Full Stack Development Workshop Certificate — HCL GUVI
- Java Interview Preparation — Udemy

ACHIEVEMENTS

- Consistent academic performer with a CGPA of 9.01/10 — strong foundation in Computer Science, problem-solving, and software development.
- Deployed 3 live full-stack projects as a 2nd-year undergraduate — demonstrating end-to-end ownership from backend API design to production-ready frontend delivery.
- Achieved 99% in SSLC and 95.5% in Intermediate (MPC) — consistent top-academic performer across all levels.
