SUMMARY

AI and Data Science undergraduate with hands-on experience deploying AWS cloud infrastructure, automating server backups via shell scripting and cron jobs, and working with Linux environments. Proficient in Python, AWS (EC2, S3, CloudWatch), and Nginx. Seeking a cloud or DevOps internship to apply technical skills and contribute to real-world projects.

SKILLS

Languages	Python, Java, C, Go (basics)
Cloud Platforms	AWS (EC2, S3, CloudWatch, IAM), Microsoft Azure
DevOps & Tools	Nginx, Shell scripting, Cron jobs, SSH, Linux (Ubuntu)
Databases	Oracle Database SQL
Networking	Computer Networks, TCP/IP, Security Groups
Version Control	Git

EDUCATION

B.Tech – Computer Science (AI & Data Science) SIMATS, Chennai, Tamil Nadu Jun 2023 – Expected 2027	CGPA: 8.5 / 10
Intermediate (MPC) Sri Chaitanya Junior College, Nellore, AP Aug 2021 – May 2023	83.7%
Secondary School (10th Grade) Kairali English Medium High School, Nellore, AP 2020 – 2021	CGPA: 10.0 / 10

PROJECTS

Cloud-Based Web Application Deployment AWS EC2, Nginx, S3, CloudWatch, SSH 2026 - Deployed a scalable web application on AWS using an Ubuntu EC2 instance, reducing manual server configuration time by configuring Nginx as a reverse proxy for efficient traffic management. - Implemented secure remote access using SSH and AWS Security Groups, restricting access to authorized IPs and eliminating unauthorized login attempts. - Integrated Amazon S3 for static asset storage and configured CloudWatch alarms to monitor CPU utilization and trigger alerts on performance anomalies.
Automated Server Backup System AWS S3, Shell Scripting, Cron Jobs, Linux 2026 - Designed and implemented an automated backup solution on a Linux server using Bash shell scripts and cron jobs, scheduling daily backups to AWS S3 with zero manual intervention. - Configured IAM policies to grant least-privilege access for the backup user, ensuring secure and auditable data transfers to S3. - Implemented logging mechanisms to track backup success and failures, enabling rapid diagnosis of issues and ensuring data reliability for disaster recovery scenarios.

CERTIFICATIONS

AWS Certified Cloud Practitioner	Amazon Web Services (Udemy), 2026
Oracle Certified Professional: Oracle Database SQL Certified Specialist	Oracle, 2026

SOFT SKILLS

Communication • Teamwork • Time Management • Problem Solving • Attention to Detail
